LIBRARIAN'S REPORT.

To the Trustees of the Wakefield Free Library I hereby submit the following report:

During the past year we have enrolled patrons to the number of 193. The circulation for the year was 4,753, about 1,600 more than in 1918. The library has been open two days each week with an average attendance of 39 persons. It was closed three weeks last winter on account of influenza in town.

We have added 143 books, 31 of which were gifts. The total number of volumes is 2,192.

The reading table has been supplied with 17 current magazines, five of which were contributed.

The demand for more books of reference and of fiction and books in the French language, is pressing. At the same time our increased patronage has proved the inadequacy of the building for our present needs.

Since mid-summer we have attempted to extend the usefulness of the library by sending a small collection of books each month to South Wakefield. If this arrangement proves itself practical, it is hoped in the future to establish this work on an enlarged and permanent basis.

In September we received a visit from the Secretary of State Library Commission, who inspected the library property and gave many valuable suggestions for carrying on the work.

Superintendent's Report

To the School Board of Wakefield:

Gentlemen:—In my first report as superintendent of your schools, submitted to you one year ago, it seemed best for me to limit myself to a discussion of general matters of importance relating to the preceding five months. In this, my second report, I shall submit the statistics for the year ending Aug. 31, 1920. In addition I shall discuss general matters, some of which relate to the school year ending Aug. 31, 1920, and others, to the present school year.

I urge a careful study of the following table of statistics of all our schools:

STATISTICS FOR YEAR ENDING AUGUST 31, 1920.

School	Teacher	Total number enrolled	Av. Membership	Per Cent. of Attendance	Number of Tardinesses	No. Weeks in Session
Union Grammar	Ellen Magnusson	29	24	96	50	36
Union Primary	Maude M. Whitehouse	39	34	93	10	36
Sanbornville 1 and 2	Abbie F. Tuttle	33	30	96	44	36
Sanbornville 3 and 4	Flora P. Brackett	33	29	97	42	36
Sanbornville 5 and 6	Helen M. Potter	28	23	96	26	36
	Florence R. Rice					
	William Ayer					
Sanbornville 7 and 8	Annie B. Lord	25	21	95	14	36
	Jessie L. Walsh					
Wakefield Corner	Ella M. Brotherston	25	19	88	44	33
North Wakefield	Bernice G. Blaisdell	14	8	92	133	36
East Wakefield	Eda J. Clow	12	9	91	7	36
Woodman	Beulah E. Abbott	11	10	91	8	36
South Wakefield	Florence N. Hanson	4	3	96	0	36
Total Averages		253	210	94	378	35.7

From this table it will be seen that we met the standard set by the state, that all schools shall be maintained for at least 36 weeks, with the single exception of the school at Wakefield Corner. Failure to secure the full 36 weeks in this school was due to the fact that it was impossible to find a teacher for the school until October 13.

Owing to several causes of delay including influenza, changes in the teaching force, and the unusual severity of the winter, we were obliged to continue most of the schools until July 2, and in one instance, to July 9 in order to complete the full year. This year our rural schools were opened on Aug. 30 and the village schools, on Sept. 7. Under average conditions of a New Hampshire winter we should be able to complete the full 36 weeks in all our schools before the end of June.

The per cent. of attendance of all our schools is shown to be 94. This is a very satisfactory showing. The average for the entire state last year was 92 per cent.

Our record for instances of tardiness is not so creditable. About one-half the schools show an excellent record in this respect, the others are less satisfactory. At North Wakefield the record is wholly discreditable.

Parents should recognize that they have a duty to perform not only in sending their children to school regularly but also in making sure that they are prompt in arriving. Co-operation between teachers and parents is a prime necessity at this point as well as at many others.

The following pupils are entitled to be credited with perfect attendance as indicated:

SCHOOL BUILDINGS.

Since my last report the following improvements have been made to provide more suitable and sanitary school quarters for our children.

The building at Union has been thoroughly renovated inside, and is now in excellent condition. At East Wakefield and Woodman additional windows have been inserted to provide the standard amount of light. At North Wakefield the interior of the building has been completely renovated and the toilets have been put in sanitary condition.

Our biggest problem was the Sanbornville Grammar School building. This building was found to be very deficient in light, and the toilets were unfit for use. In each of the two rooms of this building three additional windows have been inserted at the pupils' left, and the two windows at the rear have been doubled in size. The result is most satisfactory. The old toilets have been removed and chemical toilets have been installed inside the building. These are giving excellent satisfaction.

No alterations have yet been made upon the building at Wakefield Corner. Some provision should be made at the annual meeting to make the necessary changes required.

The heating plant at Union is not working satisfactorily. I would recommend that this matter be given your careful consideration, and some system of adequate and economical heating be installed during the summer.

TEACHERS.

The decision of the School Board to give to satisfactory teachers a substantial increase in salaries proved to be excellent judgment. We were thus enabled to retain the services of nearly all of those teachers whom we desired to retain, and to secure competent successors to those who were not retained. We were also able to complete our teaching staff before Sept. 1; and up to this time no changes have been made since the opening of the school year. I can also assure you that a contented teacher is much more efficient than one who is discontented. Our salary budget meets with the full approval of the State Department, and runs very closely to the average of the state.

HEALTH WORK.

In accordance with the provisions of the new school law medical inspection of all the pupils was made during the school year ending August 31, 1920. We were fortunate in being able to unite with the Red Cross in the employment of a registered nurse who devotes her full time to the service of the schools and of the community.

All the children in our schools were examined by the nurse and, where evidence was found of any condition requiring medical or surgical treatment, examination was made by one of our regular physicians. Sincere thanks are due to Dr. Clow and Dr. Kimball, who so willingly gave their services in this work.

These examinations showed conclusively the necessity of giving more attention to the health of the children both by parents and by the school authorities. Of the 201 pupils examined, 98 were found to be under

weight; 28 had defective vision; three were defective in hearing; 72 had some form of throat trouble; and 119 had defective teeth.

When any child was found to be deficient in development or defective in some respect, a notice was sent to the guardian or parent by the nurse. She has also devoted much time to following up such cases in the several homes. As a result a considerable number of children have received surgical treatment for adenoids and diseased tonsils, others have been provided with glasses, and others have received dental treatment.

The child with a strong, healthy body is pretty sure to develop mentally more rapidly and more completely than the child who is physically deficient. I consider that this health work is a very important part of our educational system. I trust that we shall be able to continue the arrangement by which we are able to command the services of a competent nurse at all times for the benefit of our children.

SOME INTERESTING FIGURES.

I am sure that it will be interesting to know how the new school law has worked out financially for the District. The total amount paid to the state; consisting of that portion of the state tax used for educational purposes, the \$2.00 per capita tax, and the superintendent's excess salary; amounted to \$1,896.44. The amount received from the state was \$2,419.81. Consequently the School District of Wakefield received back \$523.37 more than it paid, and in addition had the services of the superintendent free of charge.

In conclusion I wish to express my thanks to the

members of the School Board for their support and co-operation, and to all citizens who have in any way contributed to the successful work of our schools.

Respectfully submitted,

FRED W. DUDLEY,

Superintendent of Schools.
